HEALTH ADVISORY FOR SUSPICIOUS MATERIALS

HONOLULU – The public is urged to report any suspicious sealed glass vials similar to the ones found under a Wilhelmina Rise home earlier this week to the Department of Health. Photos of the vials are available on the DOH website.

Anyone finding glass vials (5.5 inches tall by 1 inch wide) of an unknown substance that are similar to the ones posted on the DOH website should contact the **Hawaii State Department of Health, Office of Hazard Evaluation and Emergency Response (HEER) at 586-4249.**

The homeowner of the Wilhelmina Rise property reported 74 glass vials containing an unknown substance. The materials were safely packaged and transported to Wheeler Army Airfield for testing by chemical experts from Aberdeen Proving Ground in Maryland.

To view an electronic picture of the ampoule (s) visit the DOH web site at www.hawaii.gov/health .
